RACE 3 PIECES HM-CARBON XT 27.5

Photo spec / Frame size: 420mm/ Some parts shown above are photo samples

## Fast XC racing mountain bike with nimble and playful geometry

The X9B ELITE is a XC racing model with a 650B (27.5") wheelset that is nimble yet stable. It shares the same frame as the advanced model and features Shimano XT components that have great basic function and durability for the best balance of performance and value. The bike is both light and has a low center of gravity, giving great acceleration while the rear triangle flexes like a spring to push you forward on ascents. Each wheel has its own role, leading to excellent high-speed handling and turning through tight corners.
